MEMORANDUM FOR: Mr. Phillips Talbot
Bureau of Near Eastern and
South Asian Affairs
Department of State

SUBJECT : Soviet Offer to Build Bokaro
Steel Plant

1. I am enclosing for your information comments by our analysts on the recently announced Soviet offer to build the first stage of the Bokaro steel plant. An earlier memorandum on this subject is attached also.

2. Neither the Soviets nor the Indians are likely to be completely satisfied if the project goes through. The Soviets are going to be hard put, both financially and technologically, to put the kind of plant the Indians want; yet the finished plant will be something less than that originally designed by US Steel.
